Electric ULV cold Fogger

1.Strong penetration, fast spread; With adjustable and uniform droplets, the fogger is applied for both space spray and residual spray. 2.Made of silica gel, the solution pipe and air pipe are anti corrosion; the fogger head is anti-cracking, shockproof, and constant temperature. The lifespan of the whole machine is long. 3.The scale of solution tank and translucent tank cover is easy for you to mix chemical solution precisely. 4.Patented technology adopted to prevent the solution from flowing back. 5.With frequency-conversion motor, adjustable delivery lift and noise, the fogger is very chemical saving.

Fields of Application:

1、Disinfection, sterilization, pest control, air purification, anti-virus, disease prevention, epidemic prevention for hospital, school, hotel, household, warehouse, factory etc.

2、The spraying disinfection and immunity for poultry farm, veterinary hospital, pet hospital, animal health center, Entry-Exit Inspection and Quarantine Bureau, Customs etc.

Parameter:

Model: KF05A	
Motor: 220 V/110V	Particle size: 10-150µm(adjustable)
Power: 800 W	Net Weight: 2.5Kg
Tank Capacity:5L	Atomization Volume: 470ml/min (adjustable)
Chemical: Handles both oil- and water-based chemical solutions	Rotate Speed : 32000 RPM
Atomization Volume: 470ml/min (adjustable)	Dimension(mm): 560×240×320
